Reid,

(b)(5) - Deliberative Process Privilege

I could do it but process wise it is probably best to come from the WAM.

Subject: WA 1-04, Task 4 Draft Report

Good morning Brian,

Attached for EPA's review is the draft report for WA 1-04 "Risk Assessment Revision for 40 CFR Part 61 Subpart W – Radon Emissions from Operating Mill Tailings," Task 4 "Detailed Risk Estimates". There are two events that are beyond SC&A's control which may cause the dose/risk estimates to change:

(b)(5) - Deliberative Process Privilege

If either or both of these events occur, SC&A will update the doses/risks in the final version of the report. Also, in the final version of the report, once all of EPA's comments on the draft report have been addressed, SC&A will sign the signature page.

Steve
